

2020

Tomato, Pepper, Tomatillo, Eggplant, Cucumber and Herb Selections

www.kctomatotimes.wordpress.com

All plants

\$2.50 each

Cucumber Plants:

[Boston Pickling](#) (BP), [Japanese Long](#) (JL), [Suhyo Cross](#) (SC), Miniature White (MW) , [Lemon](#) (L), [Armenian Yard Long](#) (AYL), [Sikkim](#) (Sk), [Armenian Dark Green](#) (ADG) [Straight 8](#) (S8), [Tendergreen Burpless](#) (TGB)[Carosello](#) (C)

Disclaimer: *Almost all of my tomato plants come from open pollinated seeds. There is a slight chance that the seeds could be crossed with another variety. It is nearly impossible to tell if there has been a cross until the fruit has ripened. If your plant produces a crossed fruit that is undesirable to you, please let me know and I'll gladly give you a free replacement plant next year.*

2020 Tomato Cheat Sheet

<i>Variety Name</i>	<i>Code</i>	<i>Sauce</i>	<i>Container</i>	<i>Black/ Purple</i>	<i>Cherry/G rape/ Saladette</i>	<i>Red/Pink</i>	<i>Yellow /White</i>	<i>Green When Ripe</i>
Absinthe	<i>Abs</i>							x
Amish Paste	<i>AP</i>	x				x		
Amish Yellow Giant	<i>AYG</i>						x	
Ananas Noir	<i>AN</i>							x
Andrew Rahart's Jumbo Red	<i>ARJR</i>					x		
Anna Russian	<i>AR</i>					x		
Better Bush VFN	<i>BB</i>		x			x		
BKX	<i>BKX</i>							
Black Cherry	<i>BC</i>			x	x			
Black Hole Sun	<i>BHS</i>			x	x			
Black Krim	<i>BK</i>			x				
Black Vernissage	<i>BV</i>			x

Other Herbs

Papalo--Awesome cilantro substitute

Red Perilla

Winter Thyme--WT

Aunt Molly's Ground Cherry (AMGC)

Tomatillo Cheat Sheet

- Rio Grande Verde (RGVT)
- Purple Tomatillo (PT)

Eggplant Cheat Sheet

- Long Purple (LPE)
- Thai Round (TRE)
- Thai Long Green (TLGE)
- Tonda Bianca (TBE)
- Violetta di Firenze (VdFE)
- Spanyol Ibrido (SIE)
- Hybrid Green Twist (HGTE)
- Violetta Lunga (VLE)
- Pianta Delle Uova (PDU)
- Prosperosa (Pros)

Basil Cheat Sheet

- Dark Opal (DO)
- Genovese (G)
- Holy Basil Red Leaf (HBRL)
- Italian Large Leaf (LL)
- Purple Basil (PB)
- Siam Queen (SQ)
- Sweet Thai (ST)
- Sweet Basil (SB)
- Mrs. Burn's Lemon (MBL)
- Cinnamon (C)

10 Steps to Successful Tomato Gardening

Step #1 Pinch off all of the lower leaves of the plant at the stem, leaving only the top one or two sets of leaves intact. Use your fingernails, not scissors or shears.

Step#2 Dig a hole deep enough to bury entire plant with just the top crown being above the soil.

Step#3 Sprinkle a balanced fertilizer blend or one with a higher Phosphorous number...Bone meal is a good additive as well...coat the entire hole and the loose soil around it with the fertilizer. The mix I sell is organic, and has everything your plant needs for the first month.

Step #4 Place the plant in the hole and fill in with the loose soil. Make sure there are no air pockets in the soil. Firm the soil around the plant.

Step #5 Water the ground thoroughly. Saturate it completely with at least a gallon of water. If the soil won't take all of the water at once, water it every 10 minutes or so until at least a gallon of water has been used.

Step #6 Lay Silver Reflective Mulch Film or other mulch around the plant. Make sure the mulch does not touch the stem of the plant.

Step #7 Install your support system. Texas Tomato Cage, Concrete Wire Cages or heavy stakes are recommended. Do not use the puny cages sold at the box stores...your plant will destroy them.

Step #8 Watch your plant grow! Avoid watering it unless the soil has dried out almost completely. Once every 5-7 days is the maximum you should water no matter how hot and dry it is. Some very successful gardeners only water a few times a year and have excellent results. If you

plant deeply, the roots will dive deep and tap into the soil moisture down below. The surface of the soil may be dry, but a foot down, there is plenty of water. Train your plant into the cage or tie it to the stake every few days.

Step #9 Prune your plant weekly. Remove any leaves and stems that touch the ground. Pinch off suckers at the forks of branches if you want a tidier plant, but don't prune too much or you'll have sunscald on your fruit. You can also spray your plant with a fungicide weekly to thwart the spread of blight and other diseases. I use Ortho Garden Control (Daconil) and have had excellent results. You can also fertilize with a balanced fertilizer. I use a 20-20-20 non-organic fertilizer I inject into my drip irrigation system. Do not use a fertilizer high in Nitrogen or you'll have big plants and no fruit.

Step #10 Pick at first blush. Watch your fruit and pick as soon as they start to show any color. Bring them inside, sit them on the kitchen table and they will ripen in a few days. Step #11 (Bonus Step!) E-mail me at kctomatotimes@gmail.com if you have any questions about your plants and I'll do what I can to help you out!
